

PCAB Quality Policy

The Philippine Contractors Accreditation Board is a government agency tasked with licensing contractors for public and private construction.

The PCAB is dedicated to providing its constituents with accurate and fast delivery of services, particularly in the issuance of contractors' license.

In order to achieve this, the PCAB is committed to a continual improvement culture throughout the organization based on its stated mandate and the PNS/ISO 9001:2008 QMS Standard.

The PCAB aims to understand the requirements of our constituents and recognize the importance of accountability, responsibility and transparency.

The PCAB views "quality" as an essential framework to improve service delivery, as well as to reinforce and enhance the agency's reputation and image.
